

# **Mentoring As Best Practice: Sharing Skills & Knowledge**

## **Resources and Links**

Groups and organizations working in CED or ABCD face significant challenges, including: how to develop a business plan; how to develop an effective marketing strategy; how to secure start-up funding. Ottawa has a rich mixture of people in the public, private and voluntary sectors with the skills and experience that could provide a valuable contribution towards capacity building for securing CED program funding. Mentorship programs are a means to achieve successful outcomes in CED and ABCD programs.
